Multi-Sided Direct Vent Gas Fireplaces
ST-550TM (cover and top) Shown with Modern front in New Bronze

ST-36TR (right) Shown with Aero front in Black and electric ember bed

A different angle & another point of view.
You can see a fireplace as simply the wonderful source of warmth and renewal that it is, but look again. A multi-sided fireplace can also be a room divider, a window, or a dramatic architectural element.

- In popular, flexible sizes—along with a variety of models and options—our multi-sided family is ideal for new construction, renovations and additions alike.
- Pier, See-Through and Corner vent off either the side or top, inspiring creative installation and design ideas.
- Each model offers a direct vent, completely sealed system that draws air for combustion from the outdoors only and expels any combustion by-products outside, maintaining clean indoor air.
- Standard electric ember beds in the Pier and See-Through provide year-round enjoyment of the fireplace, with or without flame.

Multi-Sided
There’s more than one way to look at a gas fireplace.
Pier
The Pier provides three-sided viewing, and it works perfectly as a room divider or even the base of a bar. Finish with Aero, Arcadia or Chateau Deluxe front.

Pier-36 shown with Aero front in Black and custom tile.

Corner
Put a dark, dull corner to better use. This multi-sided model adds light and warmth to any corner, left or right. Finish with an Aero front.

LCOR-36TRB shown with Aero front in Black

See-Through
The See-Through brings two rooms together while letting you design each side differently. Available in 32" and 36" models. Finish with your choice of front or door options.

ST-550T shown with CF-550 front in New Bronze and custom tile
Gateway™

The Gateway goes where other multi-sided fireplaces might not. Our patented draft-assist technology combined with its smaller size means the Gateway can be installed virtually anywhere. Includes top and bottom louver assembly. No front or door required. Gateway shown with custom finishing.

Options

**Aero Front**
- Fits Pier-36, ST-36, ST-550T* and Corner

**Arcadia Front**
- Fits Pier-36 and ST-36

**Chateau Deluxe Front**
- Fits Pier-36, ST-36 and ST-550T*

**Halston Operable Doors**
- Fits ST-36 and ST-550T*

**Galleria Operable Doors**
- Fits ST-36

**Valencia Operable Doors**
- Fits ST-36

**Folio Front (Inside Fit)**
- Fits ST-36 (Does not overlap)

**CF-550 Front**
- Fits ST-550T*

**Modern Front**
- Fits ST-550TM

Finishes

Four rich finishes. High on style, long on durability.

- Aged Brass
- Black
- New Bronze
- Graphite

**Ember Bed**

Electric ember bed provides a warm glow with or without flame. Not available on all models.

*Aero Front and ST-550T fronts are not available in Aged Brass.

Dimensions shown are in inches. Reference dimensions only. We recommend measuring individual units at installation. Assumes the use of 1/2" Sheetrock. NOTE: Non-combustible material is allowed over this dimension. Make sure you do NOT cover the decorative door opening.

Refer to installation manual for detailed specifications on installing this product. Heat & Glo reserves the right to update units periodically. The flame and ember appearance may vary based on the type of fuel burned and the venting configuration used. Pictures in this brochure are not true representation of the fireplace, flames and/or finishes.

Healthy Hearth
Our direct vent fireplaces will not alter the quality of indoor room air in any way. They utilize a sealed combustion chamber that draws in fresh air from outdoors and discards all combustion by-products back outside.

IntelliFire®
Our exclusive, state-of-the-art IntelliFire ignition system reduces gas consumption and thermogenerator wear by providing a pilot flame only when needed. It also supplies a back-up battery system to run the fireplace during a power outage.

Limited Lifetime Warranty
The strongest in the industry, Heat & Glo provides a lifetime warranty on gas-burning products for their most important aspects: firebox and heat exchanger.

*For full warranty details, go to www.heatnglo.com.
